NAAC Accreditation Grade 'A'

Recipient of Centre of Excellence Award by the Government of Gujarat

1.4.2 Feedback processes of the institution may be classified as follows:

Feedback collected, analyzed and action has been taken.

The institute collects feedback from students of each program for courses they pursue. The student feedback is formally collected at the end of each semester. The feedback collected is analyzed by Dean-AP and shared with the Director. Course feedback is also shared with individual course instructors. For certain courses, where student feedback is found not satisfactory, Dean-AP talks to the concerned course instructor and for some cases the course is assigned to an alternate course instructor as appropriate.

Students Feedback: Every semester, a structured course evaluation feedback is collected from students for all programmes in an online and anonymous mechanism. The course feedback is analyzed and communicated to the course instructor in every semester. Feedback form is structured with the course plan, the course objectives, the course material, tutorial and laboratory sessions and the usefulness of the course. Students are also encouraged to express their additional views on each subject through the course evaluation feedback or through interaction with the course instructor. The course feedback is shared with the course instructor. Apart from the students' feedback on academics, an exit feedback on curricular aspects, extracurricular activities and students' campus life is collected from the students. The exit feedback summarizes the overall experience of the students in the respective programmes.

Faculty feedback is collected for curriculum design/revision, course design and related academic activities throughout the session. Faculty proactively participate in all discussions and share views on various academic matters.

Faculty Feedback: Faculty are involved in core course design, devising elective courses, and curriculum committee. Faculty share their views on the program inputs, outcomes, courses and projects through faculty meetings held regularly and inputs from faculty are considered in all programs.

Employers Feedback: Employer feedback is collected during placement drives in every session. Employers share their fair assessment on the graduates with respect to observed skills and where the program can improve further. Industry experts are included as members in the curriculum revision of all programs and provide input on industry relevant courses to be included in the curriculum.

Alumni Feedback: Our alumni are connected virtually through the portal AlmaConnect. Alumni members share their views on the curriculum revision. In the annual alumni meet, they express their views and provide feedback to the institute. Individual alumni can also share his/her view with the Director, Deans and faculty over emails.

Parents Feedback: Parents participate in the orientation session of each program and share their views. Parents also visit the campus occasionally to drop in the faculty office, deans' office, director's office and in administration and provide their feedback and suggestions for the improvement of the programs.
