NAAC Accreditation Grade 'A'

Recipient of Centre of Excellence Award by the Government of Gujarat

### **2.2.1 The institution assesses the learning levels of the students and organises special Programmes for advanced learners and slow learners.**

The Institute has a system in place to assess advanced learners and slow learners.

**Advanced Learners:** If a student shows his/her academic progress with high Cumulative Performance Index (CPI), he/she is considered as an advanced learner. The Institute allows advanced learners to take extra courses for credit and audit, to enroll in higher level courses, which encourage students to enhance their knowledge to a great extent. The Institute also provides advanced learners an opportunity to help the course instructor in laboratory work or engage them in Study hours. Through this, the advanced learners can excel in teaching skills, and at the same time, they can also avail stipend. This experience is valuable, as it helps motivated students secure admissions in higher education. The Institute encourages advanced learners to take part in various live projects supervised by the faculty or by any other university or industry. Working in such projects enables students to enrich their knowledge.

**Slow Learners:** Remedial classes, extra sessions, tutorials are offered in every semester for the students who are found slow learners. Students who show poor academic performance after the evaluation of a semester are put on academic probation. The remedial sessions are supported by MTech/PhD teaching assistants. In addition, the course instructor plans for the remedial sessions for his/her course and implements the same as and when the demand arises. Students in the remedial sessions come with the problems or the gap that they have in a particular course and they solve the problems or make-up the gap with the help of teaching assistants supervised by the course instructor. A good number of courses are offered in the Summer semester in which a student can clear any backlog course(s) and opt for course(s) improvement as per the academic guidelines.
