NAAC Accreditation Grade 'A'

Recipient of Centre of Excellence Award by the Government of Gujarat

2.6.2 Attainment of Programme Outcomes, Programme Specific Outcomes and Course Outcomes are evaluated by the institution

Attainment of the Programme Outcomes

The programme outcomes for all programmes make contribution to the civic body through knowledge discovery, innovation, problem solving, and lifelong learning. The number of students graduated, employed and pursued in higher studies across all the programmes is an evidence of the attainment of the programme outcomes. The feedback system of different stakeholders which is in place in the Institute helps it to measure the attainment of the programme outcomes.

Attainment of the Programme Specific Outcomes

The programme specific outcomes is measured by taking the aggregate performance of all courses in a specific programme of an individual student, and then the average performance of all the students in that programme. Semester Performance Index (SPI) of an individual student versus average SPI of all students gives an impression on how the PSOs meet their objectives and what measures can be taken further to improve PSOs.

Attainment of the Course Outcomes

The Course Outcomes of each program are measured through syllabus, completion of syllabus, continuous evaluation, question paper, labs assessment, projects, and grading. The continuous evaluation is done through tests, quizzes, home assignments, project presentations, viva-voce, and so on. The in-semester and end semester examinations of every course are based on a written examination, and the other evaluative components are dedicated by the course instructors and the same is shared with the students in the beginning of the semester.
