Financial Proposal for offering Machine Learning Course for JAU UG students

Subsequent to successful completion of Refresher's Course on **Mathematics and Basic Programming**, an autumn semester course on **Machine Learning** is being delivered for the same students in audio-visual mode from DAIICT. The course started on August 2018 and will continue till December 2018.

As suggested by JAU, lectures will be delivered on every Thursday and Friday for one hour each (total 2 hrs.) in AV mode, while practical/tutorials will be conducted on site at JAU on every Saturday for two hours. For tutorials/practical, one TA will be visiting to JAU on Friday night and return on Sunday morning. **It is envisaged that lodging arrangement will be made for the TA by JAU.**

The present document presents the financial proposal for offering of ML course to approximately 100 students at three different locations e.g. Junagadh, Amreli and Veraval. The proposal is based on the course hours to be delivered by the DAIICT faculties.

Details of course, including tutorials, in Hrs.

Modules	DAIICT
1) Fundamentals of Machine Learning (2 months- August, September)	16
2) Machine Learning Techniques (2 months – October, November)	16
3) Advanced Machine Learning (2 months – October, November)	16
4) Tutorial/Practicals	40
Total	**88**

Total course hours	88 (48L + 40P)
1. Tuition fees for lectures @ INR 7800 per hour not including institutional charges and GST	3.75 Lakhs
