In compliance with the applicable provisions of GST Tax legislation in India, we are required to charge GST at applicable rates (currently 5%) on the price of our services. GST is a consumption based tax and therefore it is clarified that burden of GST in all cases shall be solely on the customer/licensee. It is therefore clarified that our price quoted above is exclusive of GST applicable at 5% on our services. In this regard, please note that GST law has been recently introduced in India and there have been several amendments which have been made by Government of India since date of its effect from 1 July 2017. In view of this, the position of GST levy as applicable on the date of issuance of our invoice shall be applied. Depending upon the prevailing position under GST law as communicated by Springer Nature Group's tax advisors, tax may be charged by us in our invoice issued to you for onward payment to Government of India. Alternatively, GST may not be charged in our invoice but would then have to be deposited by you on reverse charge basis directly to Government of India.

As on the date of this proposal, we have been advised to charge GST at 5% in our invoice. However, if you are of a view that GST is not applicable in your case or that GST compliance including but not limited to payment thereof is to be undertaken by your organization under the GST law on reverse charge basis, we should be informed of it at the first possible opportunity along with representation in the attached template as applicable in your facts but in no case later than issuance of the Purchase Order by your organization. Kindly note that our internal systems do not allow any amendment in / cancellation of our invoice(s) after the same are issued. Therefore, no request for change in invoice including but not limited to amount payable by your organization shall be entertained after receipt of Purchase Order by us.
